KEY MESSAGES

- Before we begin the EAFM planning cycle there are some start-up tasks to be done by the EAFM team.

The following are the seven start-up tasks:

- 1) **Identify our fisheries management area**
- 2) Coordinate with other agencies and LGUs
- 3) Determine legal basis for EAFM
- 4) Formalize an EAFM team and facilitators
- 5) Identify stakeholders
- 6) Develop a start-up workplan
- 7) Introduce EAFM to the identified stakeholders prior to the planning process
